

The three-claim check

Type into the fields in a compatible PDF reader, save a copy, or print and write by hand.

Task / answer being checked

Checked on (date)

Source title, URL or file / version

CLAIM 1

Exact claim

Exact evidence + location

Verdict + correction / question

CLAIM 2

Exact claim

Exact evidence + location

Verdict + correction / question

CLAIM 3

Exact claim

Exact evidence + location

Verdict + correction / question

Verdicts: supported / contradicted / not specified. Use "unverified" when you cannot inspect the evidence. Missing information does not establish the opposite.

Calculate. Verify. Rewrite.

Complete the independent checks before using or sharing the final answer.

Calculation: inputs, operation and independently checked result

Units and scope: per person / per month / whole group; what is included?

Source review: exact passage, publication/update date, relevance and access date

Corrected answer: checked facts with uncertainty kept visible

Unresolved details / person to ask / next action

- ☐ I compared quoted passages with the actual source.
- ☐ I checked the arithmetic, units and scope independently.
- ☐ I kept unsupported and unverified details visible or left them out.

Save the source and this worksheet with the final answer. For decisions with serious consequences, involve a qualified person.
